Subject: RE: copy

Paul: you, Larry, Mike Black, Mike Berrigan and Carol have a hard copy of the draft Tejon letters as well as the documents that the long letter references. I think that Mike Berrigan has begun sharing the packet within the SOL. A larger group has the electronic copy of the draft long and short letters without the background documents. Carol has been available to help get people an additional copy of any of the supporting docs if they need those documents. Sequoyah

Sequoyah and/or Carol, who got copies of the OFA Admin Error packet?
